

COACH FOGARTY

# Updated Website Branding Kit

Current color tokens and white-text rules for MF marks, orange pills/buttons, and DPAT card copy

Source: current repo state on May 18, 2026; live styles.css/index.html/app.js. This version replaces old off-white/orange text rules for the requested UI with required #ffffff text.

White Text Rule

MF icon letters, orange filled pills/buttons, featured orange proof chips, and the black Defensive Tracker card title/body/buttons must use #ffffff on every page and breakpoint.

## Core CSS Palette

| Swatch | Use               | Token               | Value                     | Guidance                                                |
|--------|-------------------|---------------------|---------------------------|---------------------------------------------------------|
|        | Site background   | --bg                | #f4efe7                   | Primary parchment page background.                      |
|        | Panel             | --panel             | rgba(255, 250, 243, 0.82) | Translucent cream cards and content panels.             |
|        | Strong panel      | --panel-strong      | #fff9f0                   | Opaque warm panel fill.                                 |
|        | Primary text      | --text              | #1f1b16                   | Main body and heading ink.                              |
|        | Muted text        | --muted             | #6a5f53                   | Secondary body, captions, descriptions.                 |
|        | Gold accent       | --gold              | #b8872f                   | Trim, highlights, proof detail.                         |
|        | Deep red          | --red / --coach-red | #8f2d1e                   | Titles, eyebrows, brand accent.                         |
|        | Coach orange      | --home-cta-bg       | #d95a24                   | Solid orange button/pill fill.                          |
|        | White action text | Required text color | #ffffff                   | MF letters, orange pills/buttons, DPAT black card text. |
|        | Blue support      | --blue              | #244f73                   | Selective support accent.                               |
|        | Green support     | --green             | #315c43                   | Selective success/development accent.                   |
|        | Ink navy          | --ink               | #2f3148                   | Dark navy/ink support color.                            |

## Required White Text Components

| Swatch | Use                            | Scope                         | Value   | Guidance                                                                                 |
|--------|--------------------------------|-------------------------------|---------|------------------------------------------------------------------------------------------|
|        | <b>MF mark letters</b>         | All pages / all breakpoints   | #ffffff | Required. Do not use #fff8ec or #fff7eb for MF text.                                     |
|        | <b>Orange primary buttons</b>  | All pages / all breakpoints   | #ffffff | View Case Study, View The Archer, View Portfolio, Send Message and similar primary CTAs. |
|        | <b>Orange system pills</b>     | Homepage Systems              | #ffffff | Learn More and system action pills when filled orange.                                   |
|        | <b>Featured proof chips</b>    | Anaya / Archer homepage cards | #ffffff | Proof chips are orange fill with white text.                                             |
|        | <b>DPAT black-card title</b>   | Homepage Systems              | #ffffff | Defensive Tracker Accountability System title on black card.                             |
|        | <b>DPAT black-card body</b>    | Homepage Systems              | #ffffff | DPAT grading and accountability tracking body copy.                                      |
|        | <b>DPAT black-card buttons</b> | Homepage Systems              | #ffffff | Button text on orange DPAT card pills.                                                   |

## Orange Fill And Retired Text Values

| Swatch | Use                      | Scope                               | Value   | Guidance                                                       |
|--------|--------------------------|-------------------------------------|---------|----------------------------------------------------------------|
|        | <b>Orange fill</b>       | Primary CTA / orange pills          | #d95a24 | Button/pill fill and border.                                   |
|        | <b>MF gradient start</b> | Homepage header MF mark             | #b43f1f | Background only; text remains #ffffff.                         |
|        | <b>MF gradient end</b>   | Homepage header MF mark             | #d95a24 | Background only; text remains #ffffff.                         |
|        | <b>Disallowed text</b>   | MF / orange pills / DPAT black card | #fff8ec | Old off-white text; not approved for the requested components. |
|        | <b>Disallowed text</b>   | MF / orange pills / DPAT black card | #fff7eb | Old off-white text; not approved for the requested components. |
|        | <b>Disallowed text</b>   | Orange pills/buttons                | #fffaf1 | Old ivory text; use #ffffff.                                   |
|        | <b>Disallowed text</b>   | Orange proof chips                  | #d95a24 | Orange is fill/border only, not text on orange pills.          |

## Program Media Cards

| Swatch                                                                            | Use                        | Scope                  | Value   | Guidance                            |
|-----------------------------------------------------------------------------------|----------------------------|------------------------|---------|-------------------------------------|
|  | Standard system card fill  | Systems cards          | #fff4e6 | Warm cream card surface.            |
|  | Standard system card title | Systems cards          | #8f2d1e | Red title on cream cards.           |
|  | Standard system card body  | Systems cards          | #6a5f53 | Muted body on cream cards.          |
|  | System action pill fill    | Systems card buttons   | #d95a24 | Orange pill fill.                   |
|  | System action pill text    | Systems card buttons   | #ffffff | Required white text.                |
|  | DPAT card fill             | Defensive Tracker card | #111111 | Black card exception.               |
|  | DPAT title/body text       | Defensive Tracker card | #ffffff | Required title and body copy color. |

## Separate DPAT Report System

| Swatch                                                                              | Use                     | Scope        | Value              | Guidance                                                                |
|-------------------------------------------------------------------------------------|-------------------------|--------------|--------------------|-------------------------------------------------------------------------|
|    | Report primary gold     | DPAT reports | #F6C400            | Primary report accent gold.                                             |
|    | Report border gold      | DPAT reports | #D6A000            | Thin report border/rule gold.                                           |
|   | Positive defense        | DPAT reports | #00B818            | Positive impact/table header green.                                     |
|  | Negative accountability | DPAT reports | #D40000            | Negative plays/accountability red.                                      |
|  | Report frame            | DPAT reports | black / near-black | Separate report visual system; do not generalize to the public website. |

## Rules To Keep The Brand Clean

### No Old Text Exceptions

Do not use #fff8ec, #fff7eb, #fffaf1, or orange #d95a24 as text on the MF mark, orange filled pills/buttons, orange proof chips, or the black DPAT card. Orange is the fill/border; #ffffff is the text.

## Active Source Files Checked

| File       | What It Confirmed                                                                             |
|------------|-----------------------------------------------------------------------------------------------|
| styles.css | MF mark text, primary buttons, orange proof chips, system action pills, DPAT black-card copy. |
